Commissioner for Patents

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on July 27, 2005 was filed after the mailing date of the Notice of Allowance on June 21, 2005, but before payment of the Issue Fee. The submission is NOT in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement will not be considered by the examiner. The submission fails to comply with 37 CFR 1.97 because (1) the IDS was not accompanied by the appropriate fee, as set forth in 37 CFR 1.17(p), and (2) the IDS was not accompanied by a statement that either:

(a) That each item of information contained in the information disclosure statement was first cited in any communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of the information disclosure statement; or

(b) That no item of information contained in the information disclosure statement was cited in a communication from a foreign patent office in a counterpart foreign application, and, to the knowledge of the person signing the certification after making reasonable inquiry, no item of information contained in the information disclosure statement was known to any individual designated in § 1.56(c) more than three months prior to the filing of the information disclosure statement.

2. M.P.E.P. 609 states that "If an applicant chose not to comply, or could not comply, with the requirements of 37 CFR 1.97(d), the applicant may file a RCE under 37 CFR 1.114, or a continuing application under 37 CFR 1.53(b) (or 37 CFR 1.53(d) if the application is a design application) to have the information considered by the examiner. If the applicant files a continuing application under 37 CFR 1.53(b), the parent application could be permitted to become abandoned by not paying the issue fee required in the Notice of Allowance. If the prior application is a design application, the filing of a continued prosecution application under 37 CFR 1.53(d) automatically abandons the prior application."

Art Unit: 3727

See the discussion in M.P.E.P. 609 subsection I. under the heading "IDS IN CONTINUED EXAMINATIONS AND CONTINUING APPLICATION."

3. In order to reduce pendency and avoid potential delays, Technology Center 3700 is encouraging FAXing of responses to Office Actions directly to (703)872-9306. This practice may be used for filing papers not requiring a fee. It may also be used for filing papers which require a fee by applicants who authorize charges to a USPTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX will be promptly forwarded to the examiner.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Niki M. Eloschway whose telephone number is (571) 272-4538. The examiner is in the office on Thursdays and Fridays.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
